digital finance

Appzillon Digital Banking Suite

Unified | Intelligent | Scalable

Digital Onboarding

Onboard customers and businesses in minutes with instant KYC, KYB, and AML verification. Unified across channels with automated workflows and real-time tracking.

Retail Banking

Deliver seamless retail banking with digital servicing, family banking, and PFM. Power digital branches and super apps while expanding reach through inclusive banking.

SME / Corporate Banking

Simplify business banking with digital servicing, trade and supply chain finance, cash management, and virtual accounts for greater efficiency and financial control.

Agent Banking

Extend banking through distributed agents serving remote and underserved markets, with real-time settlements and built-in compliance for secure, efficient operations.

Lending Solutions

Accelerate lending with fast loan origination, seamless servicing, intelligent collections, and automated processes across the entire lending lifecycle.
