

Appzillon Corporate Onboarding

From Weeks to Days - Corporate Onboarding Simplified

Till now, onboarding a corporate customer was a complex process. It was highly siloed across legal, risk, front-office, and due diligence teams resulting in a lengthy process that would take several weeks.

i-exceed understands these challenges and have come up with Appzillon Corporate Onboarding that streamlines processes and reduces the time taken to onboard.

Omni-Channel | Intuitive | Efficient

Key Features

- Dynamic screens based on business products and regions
- Comprehensive support for various business products
- AI powered smart screens to simplify data capture

Appzillon Edge

Rich Functionality : All solutions in Appzillon Digital Banking provide rich in-built functionality that leverages decades of experience in building banking solutions that are cutting-edge and delightful to use at the same time.

Multi Experience Support : Appzillon uses a single code base for all supported experiences such as mobile, web, kiosk, etc. This approach makes it easy to introduce new features across channels quickly.

Personalized Experience: Appzillon includes a rich repository of personalisation elements to help deliver a user experience that is unique and personalized for each and every customer.

AI Powered: Appzillon includes a repository of machine learning models that can be seamlessly integrated into various areas such as chatbots, omni-search, etc.

Platform Driven: All solutions have been developed using Appzillon Development Platform. The platform driven approach provides unparalleled flexibility in developing, delivering, and maintaining digital solutions.

Modular: Appzillon follows a micro-app based architecture that breaks down features into granular yet fully functional units / digital assets that are reusable and modular. These can be combined together to build complex solutions.

Agile and Flexible: Appzillon uses industry standard technologies. It follows a robust and performance driven scalable architecture to support secure interactions and high volumes.

Robust Security: All solutions follow the industry benchmark for enterprise security to ensure that data security and integrity is maintained at all times with zero compromises.
